THE SICK IMPROVING.

Most of the Patients Thought to be on the Road to Recovery.

The report from the State Normal and Industrial College this afternoon is that all of the patients are improved and some of them will soon be able to go to their homes. They are receiving the best of aid and attention by corps of competent physicians and professional nurses.

Dr. R H. Lewis, secretary of the State board of health, is making a thorough inspection of the premises and will report to the meeting of the board of directors of the institution tonight and tomorrow.

Dr. Lewis received a telegram this afternoon from the state bacteriologist, Dr. Anderson, of Wilson, who has been making a bacteriological test of the water from the three wells on the Normal premises and from the Greensboro water supply. The message states that there are no disease germs in the city water, sent by the city civil engineer, Prof. J. M. Bandy, and that it is pure.

Dr. Anderson has not reported on the samples of the water from the Normal wells, but a report is expected this evening.

A sample of the city water from a faucet at the Normal has also been sent to Dr. Anderson for a bacteriological test, but the analys s has not yet been made.

THE CONCORD CONFERENCE

Charges Against Rev. Mr. Green Sustained

RUTHERFORD COLLEGE ADOPTED

As the Conference School After a Warm Discussion—Appointments Expected Tonight.

Special to The Telegram.

Concord, Nov. 27—Sunday was a "Methodist day" in Concord. Almost every pulpit in the city was filled by one of the visiting Methodist ministers.

At the Central Methodist church at 9 o'clock in the morning the conference love feast was held; this service was largely attended and was conducted by Rev. G. H. Detwiler, of Gastonia. All of the time was occupied by the preachers in an old time experience meeting.

At 11 o'clock Bishop Key preached a strong and helpful sermon from the text found in Rev. 2:7.

He believes the spirit here referred to is a person endowed with language, thought and sensibilities.

The medium through which He formerly spoke was revelation and now it is through His ministers. He believes the following to be the reasons of the great concern of the Spirit for the church—

1. Because it is His church, because it was conceived and organized by divinity.

2 Because the church is the final and exhaustive effort of God to save a lost world.

3. The concern of the Spirit for the church is not to be wondered at when we remember the price He paid for it—His only and beloved Son. The value of anything is estimated by the cost of it.

4. His solicitude is seen further in the fact that He reserves the right to call His own ministers into the service. He desires a ministry which the world and the church will recognize as the mouthpiece of divine appointment He wants a ministry in which the church and the world will have perfect confidence. In this connection he said: "God pity the minister who does not command entire confidence."

5. Another reason for this concern and His desire to choose His ministry is because He wants to have all of personality for Himself and His service.

6. Again He reserves this right in order that He may have a ministry separated from the world and in order that He may prepare it for the work. He believes the pastor to be responsible for the conduct of His church and says the common judgment of mankind is the expression of God in this instance.

7. The essence of this divine solicitude is expressed in the last public prayer of Jesus Christ here upon earth. He did not pray for strength and influence in the church as we understand these terms, but He prayed that the church might be kept from evil, meaning the evil one. He prayed also for the purity of the church, for He wants a pure and holy church.

There is at present a drift downward in all churches, just as there is a downward tendency in all phases of life. This is why we have so many backslidden churches. But God does not at once desert a backslidden church, though He does withhold blessings from such a church. The reason of this is because the Lord intends the church to represent a nursing mother, and a backslidden church cannot be this and is in no condition to care for young converts.

In the last place he stressed the fact that the church is a force to work with and not a field to work in, and that ministers represent soldiers and not farmers. Invasion and not occupation is the work of the church, and the church is to camp only on foreign soil.

When the world sees this spirit in the church it will want what the church has.

At the close of the sermon J. W. Campbell, R. C. Craven, J. P. Davis, L. E. Peele, L. P. Bogle, V. L. Marsh, E. K. McLprty and S. Taylor were ordained deacons.

In the afternoon the memorial service for the preachers who have died during the past year was held. Three have died. The memoir of J. R Long was read by J. M. Terrell, that of W. S. Creasy, by C. W. Tillett, and that of J. T. Lyon was written by H. L. Atkins and read by W. L. Sherrill. Touching tributes to the deceased were paid by many members of the conference.

At night Rev. James Atkins preached at this church and Rev. Dr. Kilgo at Forest Hill Methodist church. The following were ordained elders at the close of the sermon: H. K. Boyer, E. W. Dixon, R. S. Howie, L. L. Smith, T. A. Smoot and R. G. Tuttle.

The appointments are expected to be read tonight though they may be delayed until tomorrow on account of much business yet to be transacted by the conference.

TODAY'S SESSION.

Concord, N. C., Nov. 27 (1:10 p. m.)—Conference met at 9 this morning.

Rev. Mr. Arnold conducted the devotional exercises.

The committee on the case against Rev. Mr Green reported the charges sustained. He was suspended for 12 months.

The report of the board of education showed that the twentieth century educational subscription had reached $10,185.

After a warm discussion, Rutherford College was adopted as the conference school.

Fourteen preachers were admitted to trial. One was readmitted.

The afternoon session ordered the appointments read tonight or probably tomorrow.

M. P. CONFERENCE.

Dr. Lewis' Sermon—A Successful Missionary Rally.

Correspondence Telegram

Flyler, Stanley county, Nov. 25—This session of the conference was entertained by a sermon from Rev. T. H. Lewis, D. D., president of Western Maryland College, Westminster, Md.

Nov. 26th—Morning session was entertained by an address from Rev. D. S. Stevens, D. D., president of Kansas City University. This property only four years ago was given to the M P. church. The valuation of this property now amounts to over $200,000. This institution is a favorable place for young men.

Missionary rally at 11 o'clock was a grand success. The assessment of the conference year was raised in full with $1,000 over. The church extension society is now in better condition than ever before.

Rev. T. J. Ogburn, secretary and treasurer of the foreign mission board, addressed the conference with his usual unique style and power.

The most encouraging report was made from the North Carolina conference The missionary spirit is rightly growing.

CONGRESS MEETS IN A WEEK

The Lawmakers are Gathering at Washington.

MOST IMPORTANT LEGISLATION

To the South is Expected this Winter, Including Harbor Bills, War Claims, etc.

Special to the Telegram.

Washington, Nov. 27—With only one week remaining before the assembling of congress, the members are beginning to put in their appearance. The members from the more distant states are generally the first to arrive, as the members from the nearby states can reach the city in a short time. The down town hotels are filling up rapidly, and by Friday, it is thought, that the majority of the members of both the senates and the house will be here. The southern members are coming in slowly. Among those already here are Senator McLaurin, of South Carolina, Senator Clay, of Georgia, Senator Culberson, of Texas, Senator Scott, of West Virginia, Senators Cockrel and Vest, of Missouri, and Representative Bankhead, of Alabama, Richardson, of Tennessee, De Armond, of Missouri, Ball, of Texas, Davis, of Florida, Kleburg, of Texas, Swanson, of Virginia, and White, of North Carolina.

Other southern members are in the city, but their whereabouts could not be discovered. Most of the southern arrivals are stopping at the Metropolitan Hotel, though several of them have taken private appartments for the winter.

Most of the southern congressmen look for important legislation this winter of interest to the south. It is hoped that there will be legislation to carry on the project started during the last session for the construction of the Nicaraguan canal, though there is danger that the attempt to press what is known as the Morgan bill, legislation for the canal may be defeated. It is hoped too that there may be legislation this winter for the formation of a bacteriological commission to examine into the causes and ascertain the best methods of preventing yellow fever from gaining a foothold in the south. President McKinley has in several annual messages urged this, but very little has been accomplished so far.

River and harbor legislation is always important to the south, and it is expected that many of the works begun during the last congress will be renewed. Jacksonville for instance hopes to be placed upon the continuing contract list, and the senators and representatives from Florida will doubtless make an earnest fight to accomplish this.

Charleston always expects legislation for its magnificent harbor, and its representative, Col. Elliott, is always wide awake when river and harbor legislation is proposed. Coming nearer home, Virginia with its vast interests around Norfolk, Richmond and its numerous rivers and harbors, is generally well provided for in river and harbor bills. North Carolina with its seacoast and many valuable harbors also generally exerts itself to secure legislation looking to the improvement of the same.. These river and harbor works always attract more local interest in the south, perhaps, than in any other section of the country, excepting the gulf ports.

The war claims in the congress are also of interest to the south, though very little is ever secured in this direction for the relief of those who had their proderty illegally seized during the late war, owing to the fillibustering tactics of the republicans opposing their payment. During the coming session, it is said that that the southern members will make an attempt to pass many of these claims, which are just. It is likely that an omnibus measure will be prepared, and an attempt made to pay all these claims which are based upon honest and just grounds in one lump appropriation.

All in all the coming session will be one of the most important of any session of congress in late years.

North Carolina republicans say that Dockery will be seated by the house in place of Bellamy, whose seat he is contesting, and it is thought that this case will be among the first to be taken up by the house after it convenes. It may be taken up before the Christmas holidays, and will give rise to a bitter partizan debate, in which election methods in the southern states, from Virginia to Texas, will be a favorite subject for republican denunciation.

It was stated Sunday morning by a Virginian who is in the city that one or two of the members of the Virginia delegation might vote for Bankhead for the democratic leadership, but who the members are the gentleman failed to state. It is thought most of the members will go for either De Armond or Richardson.

Came After Payne.

Deputy Sheriff Monroe, of Rowan county, arrived at noon today to identify the negro, Lee Payne, who was arrested by the police Saturday night He is supposed to be one John Payne, who is wanted at Gold Hill for killing a man several months ago. WHAT SPIRIT IS THIS?

It is deplorable—this wholesale roasting of Admiral Dewey by a large number of the American people because he deeded his house to his wife—a kindly act. It is unfair and unjust, we are sure. Dewey is an old man, not far from the divinely allotted term's end. According to the edict of nature he must soon leave this vale of tears, and was it anything but natural that he should fix his wife comfortably against his departure? Perhaps he had otherwise arranged for the welfare of his only son—who knows about these things? At any rate, the hey-day of the old fellow's youth has long since fled and with it all false delicacies and affected senses of etiquette. He is but a human—an honest, blunt, plain old man, and we haven't the least idea but that he was certain he was doing the proper thing in leaving his house to his wife. But however this is—whether his act was right or wrong—we never started out to discuss it. What we started to say is to ask a question: Is the attitude of these people toward Dewey, which the house incident has brought into prominence, representative of the general spirit of the American people? A few weeks ago enthusiastic millions rushed after the admiral's carriage on Broadway and Lexington Avenue. Today this same crowd has deserted him and takes advantage of every opportunity to insult and degrade him.

If this is the true spirit of this republic—if we are to love a man today and hate him tomorrow;—if we are to shower upon a hero this week the nation's greatest applause, and next week drive him to tears of sorrow with ingratitude and reproach because of a trivial breach of etiquette, then we are a dangerous people, savoring of the French, and reminding one of Rome's Pretorian Guards who one day enthroned a king to slay him on the next.

It is to be hoped that the representative body of the American people hold the conservative, sensible idea on the Dewey-house incident, and that all this wild abuse of the man whose personal and official character is of the highest grade and who kept the flag honorable in hostile foreign seas is but the natural ebullition of that class who must have something to vaporize about in their shallow-mindedness, or "bust."

If otherwise, then aren't we dangerous, and whither are we drifting?

Another end-of-the-war era is on in the Philippines. Another campaign will now begin.

NAVAL PROGRAM.

His Imperialistic Jaggs Your Uncle Sam is in it, he knows he's in it and he's going to prepare for staying in it, according to the plans the board of naval construction has mapped out for next year, which is as follows: Eighteen war ships are to be constructed with an aggregate tonnage of 75,300. Anything ever attempted by the navy department before pales into insignificance beside this plan for the maintenance of our "foreign possessions." Three cruisers will be built of 13,500 tons displacement. Placed beside one of these, the largest sea going battleship in the navy will be small, the Kearsarge and the Kentucky being only 11,525 tons. Besides their prodigious bulk, they will have engines in them capable of developing a speed that will leave even the swift Brooklyn far in the rear. They will be fast, dangerous, and clothed with armor capable of resisting the attack of an ordinary battleship. In addition to these three cruisers, the government will build three protected cruisers of 8,000 tons, six light draft gunboats of 1,000 tons, and six smaller ones of 800 tons.

Our far-distant islands must be looked after with a careful eye and an able hand, and the imperialistic leaning of the government becoming more clearly defined as each month rolls by, it is going to be interesting to watch the growth of that interesting necessity—the American navy At it present growth in a few years it must eclipse that of England.

Well, we've got the money and the iron and, presumably, the love of somebody else's land to the sufficient degree to call for the fleets that will crown us master of the seas.

JUDGMENT PAID.

The Southern Pays the Andrews Estate $2,500 Damages.

The $2,500 damages awarded the administrator of the Andrews estate, was paid over by the Southern Railway yesterday in Greensboro. Our readers are familiar with the details of the trial of the suit against the Southern instituted by the administrator of L. J. Andrews who, it was claimed, received injuries while on the Chapel Hill train, about a year ago which caused his death. A few days ago the State University railroad went into hands of a receiver, it is said, for the purpose of avoiding the payment of the Andrews judgment.

Col. Andrews, first vice-president of the Southern, and F. H. Busbee, his attorney, passed through from Greensboro last night on a special train returning to Raleigh. Judge R. W. Winston, one of the attorneys for the Andrews estate, and P. C. Graham, receiver for the State University road, came home on the same train.—Durham Herald of Sunday.

At the Stile.

Adown the grassy lane she came
And loitered at the stile—
(Her grandmamma did just the same
There many years erstwhile)—
The sole stile hereabouts, I wis,
For now are walls to climb;
Yet such a goodly style as this,
Why did it change with time?

No satin slippers then she wore,
No green calash, no shawl,
No fichu primly crossed before,
No powdered wig at all;
Yet still she dimpled on the stile
As grandma did, they say;
Tho' styles may change, a maiden's smile
Is just as sweet today.

Then Marjorie looked up at me,
And I look down at her,
The while upon the stile sat we
As once her grandfolks were.
And then I spoke their old, old phrase
And named a sweet, fond name—
Tho' stiles have changed since ancient days,
One style remains the same!

Not a Surprise.

It will not be a surprise to any who are at all familiar with the good qualities of Chamberlain's Cough Remedy, to know that people everywhere take pleasure in relating their experience in the use of that splendid medicine and in telling of the benefit they have received from it, of bad colds it has cured, of threatened attacks of pneumonia it has averted and of the children it has saved from attacks of croup and whooping cough. It is a grand, good medicine. For sale by C. E. Holton, druggist.

Blobbs—"We have a messenger call in our apartments. It's a great convenience." Slobbs—"I suppose it's a case of you touch the button and the messenger boy does the resting."

Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamerlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best satisfaction. She has used only one bottle and her shoulder is almost well.—Adolph L. Millett, Manchester, N. H. For sale by C. E. Holton, druggist.

Hoax—"There goes a woman whose husband has had one foot in the grave for many years." Joax—"Why, I thought he was dead." Hoax—"So he is, but he was a one-legged man."

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

D. BENDHEIM & SONS,

230 South Elm.

How hard a mother has to coax before she can get her child to take its first step.

It is just about as hard to induce a confirmed invalid, especially one suffering with weakness of the lungs, to take the first step to health. There is a lack of confidence, and perhaps a crushing experience of a former failure which depresses and discourages the sufferer.

In spite of doubts and fears you will take the first step to health when you take the first dose of Dr. Pierce's Golden Medical Discovery. It never fails to help. In ninety-eight cases out of one hundred it never fails to cure. Never mind about the symptoms. Obstinate cough, bleeding of the lungs, spitting of blood, emaciation, night-sweats, conditions which if neglected or unskillfully treated terminate in consumption, have all been perfectly and permanently cured by "Golden Medical Discovery."

Sick persons are invited to consult Dr. R. V. Pierce by letter, absolutely without fee or charge. Every letter is regarded as sacredly confidential. Each answer is mailed in a plain envelope. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

"My wife was taken sick in August, 1897," writes Wm. Hadley, Esq., of Benton, Franklin Co., Ills. "The doctors and neighbors pronounced her trouble consumption. I had two physicians but they did not do much good. She coughed night and day; could not lie down for coughing and she got down very low. I thought she never could be cured. Then I got four bottles of Dr. Pierce's Golden Medical Discovery and she took all of it, and is all right now. She is stouter than before we were married. She is taking care of the baby and does all the housework including the washing."

KILL 3,000 SHEEP WITH CLUBS.

Colorado Cattlemen Avenge an Invasion from Wyoming Ranges.

Three thousand sheep were clubbed to death on the range Sunday by Routt county (Colorado) cattlemen. Several years ago the sheep and cattle owners fixed the Colorado-Wyoming line as a boundary which the sheepmen agreed not to pass. This flock had been driven into Colorado in violation of the agreement. Fifty masked men took the law into their own hands, when they killed the sheep which belonged to the Geddes Sheep Company. The slaughter occurred on Lower Snake river, forty miles northwest Craig, and occupied several hours.

The masked men captured the Mexican in charge of the sheep and took possession of his wagon, after putting him under a strong guard. The wagon was demolished, and the spokes of the wheels were used as billets with which to club the sheep to death. During the progress of the slaughter armed men occupied positions of vantage to prevent the approach of possible assistance. No harm was done to the herders. They were informed that Wyoming sheep [illegible] the Routt county cattle range with impunity, and that trouble would ensue so long as the sheep owners have no line. Apparently, the sheep owners have no redress, as it will be impossible to get testimony in their favor.—Craig, Col., Dispatch, 21st.

The Enthusiast—"Beautiful! Exquisite! Her voice has matchless timbre." The Realist—"Timbre? It sounds like a whole sawmill."

The hero's lot is not a happy one, especially if there happens to be a house on it.

Sacrificed to Blood Poison.

Those who have never had Blood Poison can not know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its taint upon countless innocent ones.

Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little one was unequal to the struggle, and its life was yielded up to the fearful poison. For six long years I suffered untold misery. I was covered with sores and ulcers from head to foot, and no language can express my feelings of woe during those long years. I had the best medical treatment. Several physicians successively treated me, but all to no purpose. The mercury and potash seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. We got two bottles, and I felt hope again revive in my breast—hope for health and happiness again. I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases.
MRS. T. W. LEE,

TRADE TREATY WITH RUSSIA.

Movement Initiated by Russian Embassy About Two Months Ago.

Washington, Nov. 24—Relative to the statement attributed to Count Muravieff, the Russian minister of foreign affairs, that the propriety of remodeling the trade treaty of 1832 between the United States and Russia was now under consideration, it is learned that about two months ago this movement was initiated by the Russian embassy here. The success of the French government in negotiating a reciprocity treaty was probably the incentive to the the Russian move.

The indications of rather formidable opposition to the approval by the senate of the French reciprocity treaty, has given some concern to the officials of the state department who have had much to do with its negotiation. This treaty was perfected with the greatest difficulty, and was in itself regarded as the means of restoring the good will and cordiality between the United States and France which had undergone a severe strain during the last two years. Its failure now, it is said, at the state department, would be most unfortunate and [illegible] officials are [illegible] that the United States has secured all of the advantages from a purely economic point of view that could be expected, having regard to fair treatment of France.

The popular man is seldom the one that accummulates a large bank account.

GOEBEL LOSES THE CASE.

The Court of Appeals Affirms Judge Jones' Order.

Frankfort, Ky., Nov. 25—The court of appeals today clinched Taylor's right to 1,197 Nelson county votes. The court, all the judges concurring, refused to dissolve the injunction as asked by Goebel's attorney's. The votes in controversy were certified for W. P., instead of W. S. Taylor.

Judge Jones, of Nelson county, ordered these votes counted for W. S. Taylor and this order is affirmed.

Baldness Can be Cured

just so long as there is a particle of vitality left in the hair roots. The fact that the head is smooth and shining is no positive proof that the roots beneath are dead.

Deep down beneath the skin, hair roots may yet exist, filled with latent vitality, and all that is required to develop them into a beautiful head of hair is the faithful application of the proper agents.

Seven Sutherland Sisters'

preparations furnish the easiest, surest and quickest way to ascertain if there is or is not latent life beneath a head bare of hair. Why not try them?

VACANCIES IN A. & M. COLLEGE.

Entrance Examination to be Held in Each County December 16, 1899.

Young men desiring to enter the Agricultural and Mechanical College may be examined Saturday, December 16, 1899, in the county court house of any county in the State at 10 o'clock a. m., by the County Superintendents of Schools. The subjects of examination will be arithmetic (complete), algebra, through fractions, English, German and Analysis, and American History.

There will probably be about twenty vacancies in the college, and young men will be selected to fill these vacancies who pass the best examinations and have the best endorsements as to character. This is a rare opportunity for worthy boys to fit themselves for success in life by means of a practical education. Those desiring to be admitted would do well to write at once to President Winston, Raleigh, N. C.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and $1.00. Trial bottles free at C. E. Holton's drug store.

Tommy—"Pop. what is political economy?" Tommy's Pop—"Political economy, my boy, is not buying votes unless it is absolutely necessary."

Used by British Soldiers in Africa.

Capt. C. G. Dennieon is well known all over Africa as commander of the forces that captured the famous rebel Galishe. Under date of Nov. 4, 1897, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used myself when troubled with bowel complaint, and had given to my men, and in every case it proved most beneficial."—For sale by C. E. Holton, druggist.

"You may drag me to a dungeon deep, there to spend the balance of my days," melodramatically exclaimed the pickpocket; "but I shall die content in the knowledge that I have climbed to the pinnacle of my profession. I have attained the unattainable." His pride was pardonable, for he had been arrested for picking a woman's pocket.

The Poet Burns,

Not the least of the advantages attending life assurance is the serenity of mind which attends the provident man lying on a bed of sickness, or when he is in prospect of death—so unlike that painful anxiety for the future welfare of the family not provided for. The poet Burns, in writing to a friend a few days before his death, said that he was "still the victim of affliction. Alas! Clark, I begin to fear the worst. Burns' poor widow and a half a dozen of his dear little ones, helpless orphans; there, I am weak as a woman's tear. Enough of this, 'tis half of my disease!"

Nell—"Before they were married he promised her a coach and four." Belle—"Well, he's partially kept his promise. Since the twins came she has a coach and two."
